Computing and Communications. A world-class teaching and research hub for computer science and communications systems.

## **Computing and Communications | Lancaster University**

Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.
